“It's a bit fishy” Lemon Cake - Rating ** 4 stars**

This simply delicious cake made my mouth dance with delight.

It is a light and fluffy lemon cake cut to the shape of a fish with buttercream icing decorated with rose petals, edible silver balls, edible ink, crumbled chocolate and pink sweeties.

I made this cake because ChalkStream Trout supported us during the lockdown by bringing fresh fish to our door every two weeks. They are a local company and the trout live happily in our River Test.

I thought it was a very delicate lemon flavour with lots of vanilla buttercream, the cake was perfect, soft and super spongy.

I am only giving it 4 stars instead of 5 because the cake was very sweet. It was neatly presented with lots of decorations. I would recommend it to a friend because it is a very easy cake to make.
