

Maths Learning 2020-2021

We follow White Rose Maths throughout the school. Below are the long-term planning maps for each year group. Although all children in a year group will be learning the same maths topic, some children may be accessing the learning objectives from a previous year. This ensures that any 'gaps' in children's maths learning can be addressed before they progress. Within each topic of learning the children undertake a range of maths activities to develop their mathematical fluency, problem solving and reasoning. Children are actively encouraged to engage with greater depth mathematical thinking in their problem solving.
